WORK EXPERIENCE

O.C. Tanner, Salt Lake City, UT

March 2024 - Present

Front End Web Developer - Apprenticeship

- Design and implement new features for existing applications, leveraging technologies such as TypeScript, React, Next.js, Node.js, Yarn, among others.
- Address software bugs and enhance existing components with a dedicated focus on accessibility, user experience, and adherence to design principles.
- Adhere to rigorous company protocols for source control, pull requests, ticket tracking, change management, approvals, and DevOps processes, utilizing tools such as Git, GitHub, Jira, and proprietary company software.

AHM Software Engineering, Ogden, UT

January 2023 - March 2024

Full Stack Engineer / Freelance Web Developer

- Designed, built, and deployed a martial arts studio website by utilizing JavaScript, HTML, CSS, SASS, JQuery, Node.js, Express.js, and hosted on GitHub Pages.
- Revolutionized React application by orchestrating seamless transition from class components to functional components, leveraging hooks technology, elevating code maintainability and scalability.
- Headed transformation of website user interface, implementing innovative design principles and strategies to enhance overall user experience, resulting in visually appealing and intuitive interface.
- Defined and executed a comprehensive revamp of an e-commerce apparel website on Shopify.com, leading to improved SEO and amplified web traffic.
- Engage in coding challenges on platforms, such as Codewars and LeetCode to sharpen problem-solving skills.
- Spearhead multiple projects from inception to execution to enhance and uphold technical proficiencies.

MarketStar, Ogden, UT

April 2019 - January 2023

Software Release Manager

- Led and refined the change management process by implementing a more efficient company wide model that boosted productivity and efficiency.
- Spearheaded the company's shift from manual deployments to an automated, cloud-based system by expertly using cutting-edge DevOps strategies such as CI/CD.
- Enhanced security and workflow by introducing a permissions-based system, ensuring clear delineations of responsibilities, including change approvals, pull request reviews, and deployments.
- Played a pivotal role in achieving company certifications in ISO and SOC2 and meeting essential data security requirements mandated by premier clients.
- Earned a promotion within a year by reflecting exceptional performance and contributions.

MarketStar, Ogden, UT

Application Specialist

April 2018 - April 2019

- Served as a key resource for application support to forge strong relationships with vital company stakeholders and clients to understand and address their specific needs.
- Conducted training sessions for diverse teams, including HR, Talent Acquisition, Development, and Sales Managers on the intricacies of the company's onboarding and finance software.
- Coordinated and delivered intensive training sessions and self-learning to master the software, while subsequently training other team members for optimum utilization.
- Delivered specialized application support by becoming a linchpin for the company's software operations.

DevMountain, Salt Lake City, UT

November 2017 - April 2018

Quality Assurance Mentor

- Attained all certifications and accolades offered by the institution to further enhance credibility with an additional certification from the prestigious ISTQB.
- Selected from a pool of 20 candidates to serve as a mentor, while further extending tenure with the school post-graduation.
- Collaborated with the lead instructor to refine and enhance the course curriculum, while ensuring relevance and applicability.
- Led and instructed students on foundational and advanced principles of software QA, encompassing both theoretical concepts and automation techniques.
