Expertise in designing, developing, and maintaining high-quality software and web solutions. Analytical and innovative professional with substantial experience in full stack development, web design, and software engineering. Expert in crafting responsive and user-friendly interfaces coupled with robust back-end functionalities. Comprehensive understanding of the Software Development Life Cycle (SDLC) and excel in utilizing a diverse range of technologies and frameworks. Skilled at working effectively with different departments to coordinate information, resolve problems, and support their daily operational needs. Strong communication and interpersonal skills, able to build relationships and manage competing demands that result in the achievement of challenging goals.

WORK HISTORY

January 2023 - Current
Full Stack Engineer / Freelance Web Developer *AHM Software Engineering*, Ogden, UT
- Enhanced software functionality by implementing full stack solutions for various projects.
- Streamlined development processes with the implementation of Agile methodologies and best practices.
- Developed responsive, user-friendly interfaces using HTML, CSS, JavaScript, and other front-end technologies for seamless user experience.
- Integrated third-party APIs into applications for added features and capabilities.
- Ensured data integrity by designing secure databases using SQL or NoSQL solutions, depending on project requirements.
- Contributed to open-source projects in order to stay current with industry trends while giving back to the developer community at large.

January 2019 - January 2023
Software Release Manager *MarketStar*, Ogden, UT
- Enhanced software release efficiency by streamlining the deployment process and implementing automation tools.
- Reduced downtime during releases by closely monitoring system performance and addressing potential bottlenecks.
- Coordinated cross-functional teams for seamless software releases, ensuring timely delivery of high-quality products.
- Established a well-structured release management process, resulting in increased predictability and reduced risk of failure.
- Oversaw change management initiatives related to software releases, ensuring minimal disruption to end-users during transitions between versions of a product or service.
- Adhered to internal release development guidelines and processes to mitigate liabilities and align with business goals.
- Documented testing procedures for developers and future testing use.

- MERN
- Kanban
- User Interface Development

- DevOps Principles
- HTML5 Proficiency
- Full Stack Development
- JavaScript Expertise
- SQL Database Management
- Node.js Experience
- Agile Methodologies
- React.js Knowledge
- Continuous Integration
- Responsive Web Design
- Continuous Deployment
- Source and Version Control: Git, GitHub

- Operated under Agile and Scrum frameworks to complete releases and well-organized sprints.

January 2018 - January 2019
Application Specialist *MarketStar*, Ogden, UT
- Enhanced user experience by streamlining software applications and addressing customer needs.
- Developed customized solutions for clients, resulting in increased satisfaction and retention rates.
- Identified areas for improvement through rigorous testing and analysis of existing systems.
- Provided training and support to end-users, ensuring smooth adoption of new technologies.
- Streamlined communication between departments by establishing clear channels for sharing information.
- Tested troubleshooting methods and documented resolutions for inclusion in knowledge base for support team use.

January 2017 - January 2018
Quality Assurance Mentor *DevMountain*, Salt Lake City, UT
- Selected from a pool of 20 candidates to serve as a mentor, while further extending tenure with the school post-graduation.
- Enhanced mentee performance by providing personalized guidance and support.
- Developed trust-based relationships with mentees through active listening and empathetic communication.
- Offered constructive feedback on mentee progress, enabling them to refine their skills and enhance their potential.
- Served as a role model for professionalism, integrity, and dedication within the mentorship program environment.
- Adapted mentorship style based on individual mentee needs, enabling tailored interventions that drove better results than one-size-fits-all approaches.
- Collaborated with teachers, counselors and administrators to foster access to resources and support.
